

Citrix a Leader in Unified Endpoint Management

FORT LAUDERDALE, Fla. – August 14, 2019 – [Citrix Systems, Inc.](#) (NASDAQ:CTXS) today announced that it has been positioned as a Leader in the August 2019 Gartner Magic Quadrant for Unified Endpoint Management (UEM) Tools* based on its ability to execute and completeness of vision.

Today's employees demand freedom and choice in when, where and how they work. And to attract and retain the talent they need to make their business go, companies need to provide it. But they must also maintain the security of their systems and data across the expanded attack surface that this new model has created.

“At Citrix, we are focused on providing companies with a modern approach to managing the devices their employees need and prefer to use to get work done in a simple, secure and unified way,” said Calvin Hsu, Vice President, Product Marketing, Citrix. “We are pleased to be recognized by Gartner as a leader in unified endpoint management and will continue to develop and deliver innovative solutions that enable the future of work.”

Part of Citrix's digital workspace solutions, [Citrix® Endpoint Management™](#) allows companies to:

- Serve up personalized access to the applications and insights employees need to be their most productive.
- Provide IT with a single control plane through which they can onboard and manage application performance without getting in the way of the user experience.

- Dynamically apply security policies based on a user's behavior and environment, allowing employees to work the way they want with the confidence that their applications, information and devices are safe.
