

Make the most of your cloud journey

Your move to the cloud can be one of the best things you'll ever do for your business, your workforce and your customers. Citrix Services will help you get it right every step of the way, from designing and executing the best plan for your needs, to driving even more value over time.

GET STARTED WITH YOUR CUSTOMER SUCCESS MANAGER

As a benefit of your Citrix Cloud service subscription, you'll have access to our Customer Success Management program, which helps ensure that our services deliver the desired outcomes for your organization. At the center of this program, your Customer Success Manager (CSM) helps you engage your users and connect with the right resources to achieve value across your Citrix Cloud journey.

PLAN

Available services for assessment and design help you build out your workspace delivery architecture, project timeline and team, and create a training plan for your admins and users.

IMPLEMENT

Project-based engagements help you get your cloud services into production quickly, with configuration best practices and user validation to ensure that the experience you deliver fulfills the promise of your vision.

ENGAGE

As you execute your plan, we'll help you define champions and SMEs, raise awareness, conduct pilots and enable users. Tech team certification and production readiness assessment ensure that you're ready to go live.

MANAGE

To shift focus to strategic initiatives, you can outsource day-to-day cloud operations to Citrix Managed Services. We'll ensure maximum business impact while minimizing risk.

OPTIMIZE

To ensure that your cloud improves, evolves and grows with your business, your CSM will help you share best practices, develop new use cases, and put the latest cloud innovations to work.

Explore Citrix Services for every phase of your cloud journey

Education:

Build a plan for admins and users across your organization to build essential cloud skills and expertise with these courses.
