

EASY LICENSING PROGRAM TERMS (Last Revised 23 July 2018)

Simple access with Easy Licensing

The Easy Licensing Program (the “Program”) provides customers greater flexibility in licensing, purchasing, installing and maintaining Citrix products and in purchasing Citrix services. The Easy Licensing Program is available through authorized Citrix resellers (or Citrix as noted below) to all customers meeting the minimum purchase requirements. Citrix may share your account information with authorized Citrix resellers and distributors to enable them to support your transactional needs. Registration for the Easy License Program does not obligate you to make a purchase. When you are ready to purchase, your submission of a purchase order with your registration number and customer number to an authorized Citrix reseller or Citrix constitutes your acceptance of the then current Program Terms. Should you authorize a finance company to submit an order on your behalf, you agree that such submission will likewise constitute your acceptance of the then current Program terms. The finance company’s use of your registration number and customer number, with product or service delivery to you, shall confirm your authorization. Ask your authorized Citrix reseller for a current list of the Citrix offerings which are available in your geography under the Program.

Pricing

Program pricing is based on two models, one for on-premises product offerings and the other for Citrix Cloud services. Only one model applies to any offering.

Program pricing for eligible on-premises offerings follows a transaction-based model. Pricing and discounts are established by the reseller channel (or Citrix in the event of direct purchases). The Easy Licensing Program is easy for you to administer and works well for all types of companies, centralized or decentralized.

Program pricing for eligible Citrix Cloud services follows a tiered-price model where the suggested price decreases with the number of active entitlements for a service. Active entitlements include those purchased by your organization and your registered Affiliate(s). The annual value of an individual Citrix Cloud services purchase also adds points toward your suggested corporate discount for eligible on-premises offerings.

There is no customer reporting required under the Program.

Maintenance, Warranty and Consulting

Citrix maintenance, technical support and warranty models vary by Citrix product. Your authorized Citrix reseller can clarify the maintenance, support and warranty offerings available in your geography for the products of interest to you. Note that maintenance, support and warranty renewals are available directly from Citrix in North America. Citrix also offers a variety of consulting services relating to Citrix products. These offerings are available directly from Citrix worldwide. On an exception basis, Citrix may likewise accept orders for products and services directly worldwide. Maintenance, support, warranty and consulting terms are contained in the relevant product license(s) or terms of service. Consulting is a type of support offering, and warranties and limitations of liability applicable to support offerings in the relevant product license(s), apply to consulting services. If you require consulting services in relation to a product you have not yet installed, your purchase of consulting services shall be based on the following terms instead: a) consulting services shall be provided in a professional and workmanlike manner; **ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, ARE SPECIFICALLY DISCLAIMED**; b) all intellectual property rights in all reports, preexisting works and derivative works of such preexisting works, as well as installation scripts and other deliverables and developments made, conceived, created, discovered, invented, or reduced to practice in the performance of the services are and shall remain the sole and absolute property of Citrix, subject to a worldwide, nonexclusive license to you for internal use; and c) Citrix's liability shall be limited to the amount paid for the consulting services at issue.

Is Easy Licensing right for my organization?

Your authorized Citrix reseller can clarify the minimum initial purchase requirements and minimum reorder requirements in your geography for the offerings of interest to you. Should you fail to make a purchase within six months of your registration, your registration will be cancelled. Otherwise, your registration will continue. All purchases under the Program are final with no right of return, cancellation or refund, other than under warranty or the infringement indemnification terms of the relevant product license(s) or terms of service. Hosted service, application service and infrastructure service providers are not eligible to purchase software or software maintenance under this Program in support of service offerings for third parties. Citrix has created the Citrix Service Provider Program for such services. For purposes of this restriction, "hosted service providers" are customers that focus on delivery of a combination of traditional IT functions such as infrastructure, applications, security, monitoring, storage, web development, website hosting and email to third party customers, over the Internet or other wide area networks; "application service providers" are customers that focus on delivery of application services in such a manner; and "infrastructure service providers" are customers that focus on delivery of infrastructure services in the same manner. This restriction does not apply to services for internal users (including their contractors, consultants and agents) or services for

third parties which are offered only as part of business outside the scope of those excluded above.

Product Licenses and Terms of Service

Citrix products are offered for your implementation and use under a license or as Cloud services under terms of service which you accept upon your submission of a purchase order hereunder, as well as upon product installation or Cloud service initialization, as applicable. Licenses are shipped with products in a click-wrap format while terms of service are made available as a web-link during your initial set-up of a service and/or as a link within the service site. Your authorized Citrix reseller can clarify the license and service models available for the Citrix products of interest to you. If you wish to view all current licenses and terms of service now, including applicable maintenance, support, warranty and consulting terms, please click here: [Licenses and Terms of Service](#). These are part of these Program terms, apply to your use of products and services, and should be reviewed in advance of purchase. You may not transfer or assign a license or service entitlement without the prior written consent of Citrix unless you transfer or assign the license or service entitlement to a successor in interest, or pursuant to a merger, corporate reorganization, or a sale or transfer of all or substantially all of your assets, in which case you still need to notify Citrix.

Program and License Update

Citrix will occasionally update these Program terms, its product licenses and/or terms of service. When we do, we will also revise the "Last Revised" date at the top of the Program terms, the relevant product licenses and/or terms of service. Any changes apply only to your new product or service purchases or service renewals on or after the date of change. You are not obligated to make additional purchases if you do not agree with updated terms. Citrix maintains the right to reject a purchase order for non-compliance with these terms. Citrix also maintains the right to terminate the Program for any or no reason upon thirty (30) days prior e-mail notification to you. If you are registered for the same Program in multiple instances, or if you are registered for more than one Citrix licensing program, Citrix may automatically terminate all registrations, except for the registration then offering you the highest earned discount. If you purchase a multi-year subscription for any service(s), your purchase is for the full value of all years of the subscription, even if required payments are annual. In the event you fail to pay any annual payment when due, and such default shall continue for a period of thirty (30) days, then any and all remaining amounts shall become immediately due and payable. Citrix reserves its right to suspend or terminate service delivery for non-payment as set forth in the applicable terms of service. Your payment obligations shall survive your participation in, termination of, or expiration of the Program. You agree that all of your payment obligations shall be absolute and non-assignable. With respect to any order submitted directly to Citrix and accepted, payment shall be due to Citrix net 30 days after the date of invoice. Should any such order identify a "Bill

To” other than you, you agree that you remain liable for payment until payment is made. Citrix shall ship tangible products Ex Works Citrix’ shipping location (Incoterms 2010) and title shall pass upon delivery by Citrix to the shipping location. Intangible software and online services shall be delivered electronically. Nothing contained in any purchase order or any other document submitted by you or your finance company to an authorized reseller or Citrix shall in any way add to or otherwise modify the Program terms. The Program terms, including applicable product licenses and terms of service, shall constitute your exclusive agreement with Citrix. Authorized Citrix resellers are independent contractors and are not authorized to bind Citrix in any way.
