

Accessing your company's Enterprise License Agreement Profile

What's in this guide?

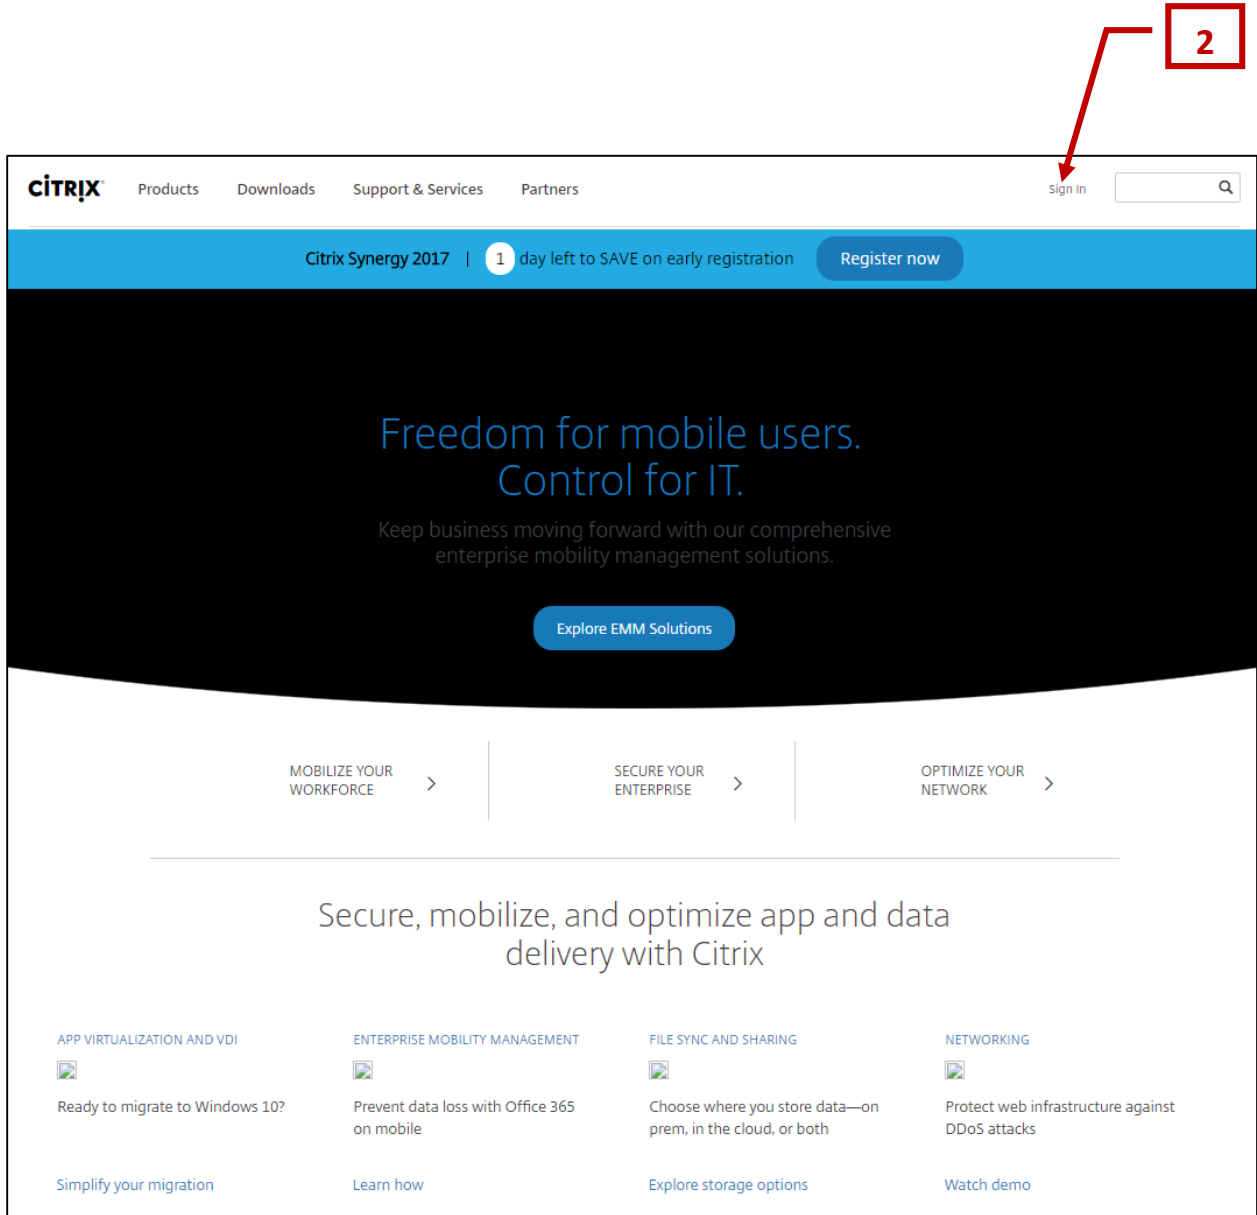

This guide provides step-by-step instructions for a customer to access its company's Enterprise License Agreement ("ELA") Profile. The company must be registered in the ELA Program and have already submitted a qualified initial order resulting in the ELA being established at a defined program level.

The steps below are for an individual who has an existing Citrix account that is associated with a customer organization. If you do not have a Citrix account, see the guide titled [Creating a Citrix Account](#) for step-by-step instructions on how to set up your account on citrix.com. An authorized Citrix partner can access your company's ELA Profile for you. For additional assistance with either establishing a Citrix account or accessing your company's Enterprise License Agreement Profile, please contact an authorized Citrix Partner. Locate a partner at www.Citrix.com/Partners/Locator.

Why access your company's ELA Profile?

Accessing your company's Enterprise License Agreement Profile is the easiest way to see a summary of your customized discount and benefits in one, easy-to-use document. You can post the document on your company's intranet or department's ShareFile site, or email it to your associates to enable them to take advantage of the discounts and benefits. This allows their purchases to potentially increase the Enterprise License Agreement program benefits and discount level assigned to your ELA agreement.
