What’s in this guide?
This guide provides step-by-step Instructions for a Primary or Secondary License Program Administrator to publish Enterprise License Agreement program information to a Citrix partner on citrix.com. If you have not selected a Citrix partner, you will have the opportunity to search for and select a partner.

The steps below are for an individual who has an existing Citrix account. See the guide titled Creating a Citrix Account for instructions on how to create your Citrix account. Your ELA program information is automatically published to a partner if that partner registers you for the ELA program. For additional assistance with either establishing a Citrix account or publishing your Enterprise License Program information to a partner, please contact an authorized Citrix partner. Locate a partner at www.Citrix.com/Partners/Locator.

Why publish your ELA program information to a Citrix partner?
Providing your ELA program information to a Citrix partner empowers the partner to generate RFIs, RFPs, quotations and proposals to help you meet your business needs and incorporate the specific discounts and benefits provided to your organization by your ELA program registration.
