

Citrix Education Training Offerings

Four ways to learn: group training, individual classroom training, online eLearning subscription, or custom video training for your end users.

Group Training (6-14 students)

If you have a group of people with a similar need for training, consider group training. We will customize a training to fit your needs, and deliver it when and where you want it – and you benefit from economies of scale! Training is delivered by an expert Citrix Certified Instructor (CCI) on-site or through a live virtual experience, depending on your preference.

Custom Video Training for End Users

Train a large audience of end users with a custom-built training video that demonstrates how to use your Citrix products in your organization's environment.

Individual Training

Join like-minded professionals in a physical or virtual classroom environment and learn through hands-on experience with Citrix products.

e-Learning Subscription

Learn anywhere, anytime with access to all available Citrix online eLearning content, for one low price.

Get the most from your products and people!

Citrix Education will help you:

Enhance self-sufficiency – gain a working understanding of your Citrix technology, and realize value from day one.

Increase productivity – reduce support calls and time spent troubleshooting by equipping your team with the right knowledge.

Maximize product capabilities – learn to use Citrix solutions in new and efficient ways, so you can achieve your goals faster.

Testimonials:

"Nothing to even think about. Take a Citrix training course, absorb it and you will benefit in more ways than you will even realize at the time of the class."

- Jason Hart, Chief Information Officer, 247 Managed Network Solutions

"It's worth the time and money to invest in your future. Citrix training provides just that."

- Jay Clarke, IT Architect, BE Aerospace

"The Citrix course I attended provided me a massive leap into the Citrix space. I was able to walk away from the course with a wide range of knowledge and the ability to configure and manage a Citrix environment. There were so many unrealized benefits and opportunities that I discovered by attending the course."

- IT Specialist, State & Local Government
