

## Updating macOS EPA Plug-in v26.03.31 in Citrix ADC

The following files need to be updated:

- /var/netscaler/gui/epa/scripts/mac/Citrix\_Endpoint\_Analysis.dmg
- /var/netscaler/gui/vpn/pluginlist.xml

### 1. Citrix\_Endpoint\_Analysis.dmg

This is the installer file for the EPA app.

Place the new Citrix\_Endpoint\_Analysis.dmg under:

```
/var/netscaler/gui/epa/scripts/mac/
```

### 2. pluginlist.xml

This XML file exists only in NetScaler Gateway version 11.0 and later.

Modify the version and compatibleFrom attributes as mentioned below.

Sample <plugin> node with type "MAC-EPA" in pluginlist.xml

#### Before Update:

```
<plugin
  name=""
  type="MAC-EPA"
  version="x.x.x.x"
  path="/epa/scripts/mac/Citrix_Endpoint_Analysis.dmg"
  compatibleFrom="y.y.y.y"
  compatibleTill=""
/>
```

### **After Update (to version 26.03.31):**

```
<plugin
  name=""
  type="MAC-EPA"
  version="26.03.31"
  path="/epa/scripts/mac/Citrix_Endpoint_Analysis.dmg"
  compatibleFrom="26.03.31"
  compatibleTill=""
/>
```

**Update the compatibleFrom attribute only if instructed with a proper value.**

---

### **Final Steps**

Run the following two commands:

```
rm -rf /netscaler/ns_gui
ln -s /var/netscaler/gui /netscaler/ns_gui
```
