Updating Mac OS X plug-in v3.1.8 in NetScaler Gateway

The following files have to be updated.

Files

/var/netscaler/gui/vpns/scripts/mac/**Citrix_Access_Gateway.dmg**
/var/netscaler/gui/vpns/scripts/mac/**macversion.txt**
/var/netscaler/gui/epa/scripts/mac/**Citrix_Endpoint_Analysis.dmg**
/var/netscaler/gui/epa/scripts/mac/**epamacversion.txt**
/netscaler/ns_gui/vpn/**pluginlist.xml**

1. 'Citrix_Access_Gateway.dmg'

This is the installer file for the plug-in, place the new *Citrix_Access_Gateway.dmg* under /var/netscaler/gui/vpns/scripts/mac/

2. 'macversion.txt'

Update this file with the version number of the plug-in you are uploading to NetScaler (Ex: *3.1.8 (390)*).

3. 'Citrix_Endpoint_Analysis.dmg'

This is the installer file for the EPA app, place the new *Citrix_Endpoint_Analysis.dmg* under /var/netscaler/gui/epa/scripts/mac/

4. 'epamacversion.txt'

Update this file with the version number of the app you are uploading to NetScaler (Ex: *3.0.3.1*).

5. pluginlist.xml

This xml file exists **only** in NetScaler Gateway version **11.0** and later. Modify the *version* and *compatibleFrom* attributes as mentioned below.

• Sample plugin node with type "**MAC-VPN**" in pluginlist.xml before update

```
<plugin
      name=""
      type="MAC-VPN"
      version ="3.x.x (xxx)"
      path="/vpns/scripts/mac/Citrix_Access_Gateway.dmg"
      compatibleFrom="3.y.y (yyy)"
      compatibleTill=""
/>
```

Update the *version* to "3.1.8 (390)"

```
<plugin
        name=""
        type="MAC-VPN"
        version="3.1.8 (390)"
        path="/vpns/scripts/mac/Citrix_Access_Gateway.dmg"
        compatibleFrom="3.y.y (yyy)"
        compatibleTill=""
/>
```

Update the *compatibleFrom* if instructed with proper value.

- <u>Sample plugin node with type "**MAC-EPA**" in pluginlist.xml before update</u>

```
<plugin
        name=""
        type="MAC-EPA"
        version="3.x.x.x"
        path="/epa/scripts/mac/Citrix_Endpoint_Analysis.dmg"
        compatibleFrom="3.y.y.y"
        compatibleTill=""
/>
```

Update the *version* to "3.0.3.1"

```
<plugin
        name=""
        type="MAC-EPA"
        version="3.0.3.1"
        path="/epa/scripts/mac/Citrix_Endpoint_Analysis.dmg"
        compatibleFrom="3.y.y.y"
        compatibleTill=""
/>
```

Update the *compatibleFrom* if instructed with proper value.
