Finding Documentation

The *XenApp Server WFAPI SDK Guide* is automatically installed when you install the WFAPI SDK (default location: %SystemDrive%\Program Files\Citrix\WFAPI\Docs). To open this document, double-click the Wfapi.pdf file.

Getting Support

Citrix provides technical support primarily through the Citrix Solutions Network (CSN) channel partners. Contact your supplier for first-line support or use Citrix Online Technical Support to find the nearest CSN partner.

Citrix offers online technical support services on the [Citrix Web site](#). The Support page includes links to downloads, the Citrix Knowledge Center, Citrix Consulting Services, and other useful support pages.

The [Citrix Developer Center](#) is the home for all technical resources and discussions involving the use of Citrix SDKs. You can find access to SDKs, sample code and scripts, extensions and plug-ins, and SDK documentation. Also included are the Citrix Developer Network forums, where technical discussions take place around each of the Citrix SDKs.

What's New in this Release

Support for Citrix XenApp Server 6.5 on W2k8R2 SP1 (Win7 x64), new support for dynamic clientname passthrough on a double-hop ICA session.

Installation Information

Installing the WFAPISDK

To install the WFAPI SDK, run wfapi.msi. Follow the installation dialogs.

The default installation directory is %SystemDrive%\Program Files\Citrix\WFAP

Uninstalling the WFAPI SDK

To uninstall the WFAPI SDK, use the Add or Remove Programs utility in the Windows Control Panel.
