

Does your application infrastructure meet modern business user needs?

Deliver business agility through datacenter automation with Citrix NetScaler and Cisco Application Centric Infrastructure (ACI)

Your business users depend on your application infrastructure to deliver the speed, flexibility, reliability, and protection they need.

Citrix NetScaler and Cisco ACI help you address the changing needs of applications with automated network policy management that delivers security, agility, and scalability.

SECURITY

92%

of devices on the internet run software with known security vulnerabilities.¹

50%

of CEOs say their organization isn't fully prepared for a cyber attack.²

Implement comprehensive security while ensuring compliance with industry standards using native ACI security and NetScaler security services.

DEFEND YOUR BUSINESS

PROTECT YOUR USERS

MAINTAIN COMPLIANCE

AGILITY

72%

of CEOs are concerned about keeping current with new technologies.²

Rapidly address business changes with infrastructure management tools that feature uncompromising integration between NetScaler and ACI. Ensure smooth operations for hybrid multi-cloud deployments and seamless cloud orchestration.

IMPROVE SYSTEM RELIABILITY

EASILY ADAPT TO CHANGE

DEPLOY QUICKLY

Use automated remediation to reduce mean time to repair (MTTR) by up to

80%³

SCALABILITY

Nearly

50%

of CIOs cite improving IT operations and systems performance to be their top area of focus.⁴

Maintain uncompromised performance across multiple applications—even as demands fluctuate—through NetScaler services that work directly with ACI.

OPTIMIZE ASSETS

ENHANCE PERFORMANCE

REDUCE COSTS

Use multiple load-balancing techniques to:

- Improve performance
- Reduce costs by up to 60%
- Provide 100% availability

"We are excited by the direction Citrix has taken with NetScaler and their integration with Cisco ACI. We believe that a concrete SDN solution with L4-7 automation is a game-changer in how next-generation datacenters will operate and deploy applications."

-Matt Chamley
Head of Global Infrastructure
Woolworths

Transform your infrastructure today with accelerated application delivery, scalability, security, and ease of management.
