“With CSC MyWorkStyle, CSC and Citrix continue to pioneer the workplace of the future—one that is highly flexible, hyper-connected and always on. As our decade-plus-long partnership continues to evolve, our vision remains intensely focused on creating market-leading mobile, collaborative and secure virtual solutions for our enterprise customers. It’s an exciting time for us and our joint customers.”

— Andy Vandeveld
Vice President, Enterprise Partner Sales

**LEVERAGE THE CLOUD TO ENABLE MOBILE WORK STYLES**
CSC and Citrix blend their proven consulting, cloud, virtualization and networking solutions to deliver high-performance, cost-effective services in support of flexible work styles. Our simple-to-use, cloud-based technology employs customized workplaces to accelerate business results — regardless of location or device.

**CLIENT BENEFITS**
CSC and Citrix have partnered since 2001 to provide tailored virtual desktop solutions. In contrast to traditional portfolio partnerships, ours is focused on four principles:

• Everything as a service
• Device independence
• A connected cloud model
• Evergreen solutions

These principles guide us toward solutions with important advantages for both individual users and your enterprise as a whole.

**For users:** Offering a consumer-like mobility experience, our leading-edge communication, content and collaboration solutions provide access to work-related resources using any device. The increased self-service capabilities provide an easy to customize, single point of access for every work style. This greater degree of choice and control over how, where and when work gets done improves productivity and speeds business results.

**For the enterprise:** Our cloud-based services offer seamless delivery of reliable, scalable and secure work style-driven solutions for Windows desktops, applications and data centers.

These evergreen solutions:

• Speed deployment and reduce burdens on IT
• Increase financial predictability and help control costs
• Boost operational efficiency and agility
• Create a more confident workforce

Perhaps most importantly, our simple as-a-service model provides an effective platform for growth. Modular building blocks allow you to quickly and cost-effectively scale the solution capabilities as your business needs evolve.
OUR ALLIANCE AT A GLANCE

• CSC and Citrix have been partners since 2001
• Industry analysts consistently rank both as premier market players
• CSC is a Citrix Strategic System Integrator partner
• Alliance focus is on delivering desktop virtualization and mobility solutions that increase agility and accelerate business
• Alliance draws on leading technology, rigorous methodologies and decades of experience
• Clients can choose a hosted, on-premises or hybrid approach

JOINT OFFERINGS/SOLUTIONS

Our CSC MyWorkStyle offering utilizes Citrix XenDesktop, Citrix XenMobile, Citrix ShareFile and Citrix NetScaler. These and other elements of the robust Citrix mobile solutions portfolio help us create integrated, flexible desktop environments accessible by any device, over any network.

XenDesktop delivers on-demand virtual applications and desktops to any device, including BYO tablets, smartphones, PCs, Macs and thin clients. This single, unified platform provides self-service access for users and simplified management for IT. Its fast deployment and powerful support capabilities help reduce costs and drive innovation.

XenMobile is a complete enterprise mobile computing platform that meets security and compliance requirements while giving users device, application and data freedom. Users get single-click access to a unified corporate app store that includes seamlessly-integrated email, browser, data sharing and support applications.

ShareFile is an enterprise follow-me data solution that enables IT to deliver a robust data sharing and sync service meeting users’ mobility and collaboration needs and the enterprise’s data security requirements.

NetScaler is a unified management framework that lets IT easily secure, control and optimize the delivery of applications, desktops and services to any device. With its access control, auditing and reporting support compliance and data protection capabilities, NetScaler provides a superior end user experience.

CSC professionals work with you to ensure CSC MyWorkStyle is optimized for your business and your workforce. You can always choose the approach that is best for your business, including a hosted, on-premises or hybrid solution.

DIFFERENTIATION

As industry leaders in desktop outsourcing and virtualization, CSC and Citrix take a holistic approach to desktop and application delivery. To create highly effective, integrated and personalized solutions, we address strategy and planning, infrastructure and architecture, deployment and execution, and maintenance and operations.

Our combined experience shows that there is no effective “one size fits all” approach to desktop virtualization. We apply our disciplined methodologies, extensive portfolio of intellectual property and broad experience in managing millions of desktops to accelerate the deployment of scalable mobile solutions.

ABOUT CSC

CSC is a global leader in next-generation IT services and solutions.
