

The business value of NetScaler

Validated and grounded in real-world results.

NetScaler is an advanced application delivery and security platform that helps organizations deliver high-performance, secure, and reliable digital experiences across hybrid and multicloud environments.

The Buzz among NetScaler users

1 Quantum decryption threatens all encrypted data, but some sectors face higher risk:

“NetScaler turned a 4-to 6-hour recovery process into a 10-minute process.”

“From a staff time-use perspective, we’ve seen that staff have a good 30% more time with NetScaler to focus on business-related activities as opposed to overhead-related activities.”

“We’ve recognized several million dollars in light green productivity savings as a result of application performance improvements and workflow performance improvements with NetScaler.”

2 How NetScaler performance pays off

NetScaler delivers measurable value across performance, security, and efficiency. The results speak for themselves.

Amped up ROI

387%

ROI over three years

7 mo.

payback period

\$434K

saved annually per organization by consolidating infrastructure and simplifying operations

Built for speed

70%

more efficient application delivery teams

17%

faster time-to-launch for new applications

30%

faster provisioning of VDI environments for new users

Downtime? What downtime?

97%

reduction in unplanned downtime

\$2.76

million saved annually in productivity

\$362K

in avoided revenue losses per year

Security that doesn’t sleep

23%

reduced likelihood of a security breach

16%

efficiency boost in security operations

Smarter by design

15%

increase in VDI end-user productivity

18%

troubleshooting and resolution efficiency gains

Scaling smarter starts here

NetScaler doesn’t just support your infrastructure; it accelerates outcomes. From faster app delivery to simplified management using a single dashboard –backed by real, measurable ROI –it’s the platform that turns IT into a strategic advantage.

Whether you’re modernizing, scaling, or securing complex environments, NetScaler delivers the flexibility and performance to lead with confidence.
