

Transform your business with HPE Hyper Converged 380 and Citrix XenDesktop.

The IT manager's dilemma

Digital business transformation can drive success.

Digital transformation aligns technology and business models to more effectively engage digital customers throughout the entire customer experience lifecycle.¹

- Create a mobile workforce.
- Deliver HD user experiences on any device.
- Enable instant access to infrastructure, support, and data.
- Support workforce productivity.
- Streamline management processes.

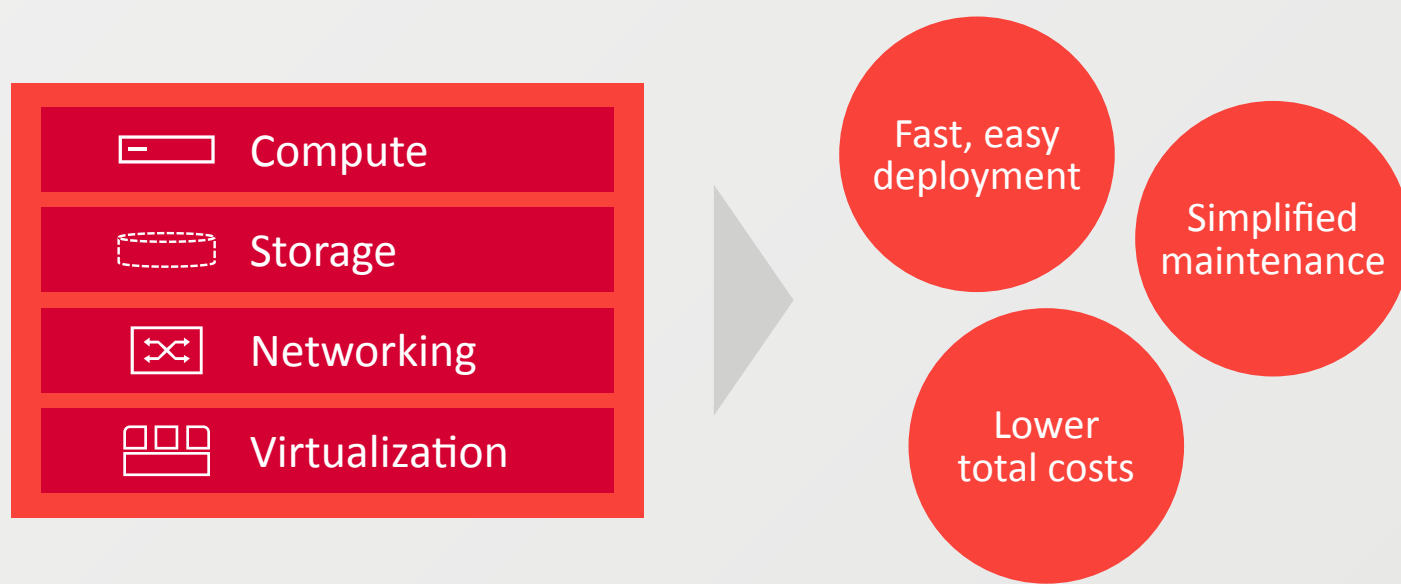

67% of CEOs will have digital transformation at the center of their corporate strategy by the end of 2017.²

Citrix XenDesktop delivers the capabilities you need to transform your IT.

- Mobile productivity
- Security and compliance
- Simplified IT operations
- Cost savings

Citrix XenDesktop provides secure application and desktop virtualization to give your employees the freedom to work from anywhere, on any device, with a high definition user experience.

Hyperconverged infrastructure makes digital transformation even easier.

79% of IT professionals are considering or have already deployed hyperconverged infrastructure.³
